

NEW DISC BRAKE PAD SBS2220H0 - 3 057 0096 01

ENVIRONMENTALLY FRIENDLY

The composition of the brake pads is free of heavy metals like organic solvents as aids, or as antimony. SAF-HOLLAND handles all ecologic and health related topics for customers, users and employes with care.

COMPETENCE

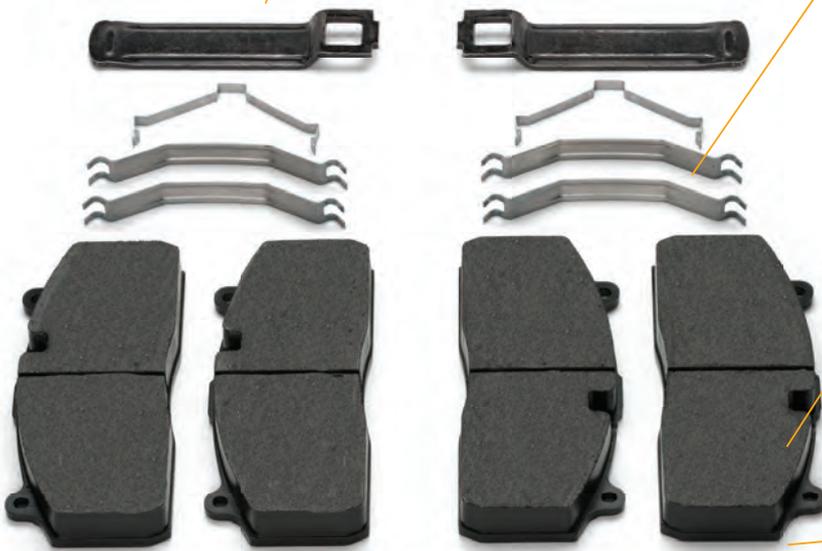

SAF-HOLLAND stands for competence in brake technology. They are packed in SAF-HOLLAND Original Parts boxes, marked SAF and delivered with original SAF accessories.

PRODUCT SAFETY

SAF-HOLLAND original parts are tested and ECE-R90 approved. For your own safety, we recommend the use of SAF-HOLLAND original parts in all servicing and repair work.

LONG LIFE

The new generation of disc brake pads shows a low wear rate across all temperatures. In addition, a long life is targeted by the use of high grade materials and efficient friction force transmission for brake pad and brake disc. Decide on SAF-HOLLAND original brake pads which will reliably serve you for a long time.

IMPORTANT NOTE

In the case that non-SAF-HOLLAND original spare parts are used and a claim occurs as a result of this non-use, SAF-HOLLAND is not subject to any guarantee obligations and cannot be held responsible for any defects pursuant to the general rules of civil law.
